

Career Objective

An enthusiastic and detail-oriented Computer Science graduate with strong skills in HTML, CSS, and JavaScript. Eager to apply my web development knowledge and passion for creating engaging user experiences to contribute effectively as a Web Developer. Committed to continuous learning and ready to deliver high-quality web solutions in a dynamic team environment.

Internship Experience

Angular Developer Internship(with Node.js)• Veranda race learning solution pvt ltd

Jun 2023 - Sept 2023

- Developed responsive web applications using Angular, ensuring a seamless user experience across devices.
- Integrated RESTful APIs and backend services with Node.js for dynamic and scalable features.
- Worked on data binding, form validation, and HTTP client services to connect Angular apps with the backend.
- Optimized application performance by utilizing lazy loading and modular architecture in Angular.

Collaborated with cross-functional teams to design and implement full-stack solutions, from front-end to backend deployment.

Contributed to the improvement of the user interface and application flow with continuous testing and debugging.

Skills :

Skills : Angular, Node.js, Bootstrap , HTML , CSS , MongoDB

Projects

Admission Management System

Developed software to manage educational institution procedures online, including student admission, document collection, and candidate shortlisting.

Skills: HTML5, CSS3, PHP, SQL.

Voice-Based Email for the Visually Impaired

Created a Python-based application enabling visually impaired individuals to control their email accounts using speech-to-text voice response. It allows users to read, send, and perform other tasks using voice commands.

Skills : Python , SQL , HTML , CSS

Skills

- HTML & CSS
- React
- Angular
- Javascript
- SQL
- MongoDB
- Typescript

Tools

- Git
- Phpmyadmin

Education

Jun 2018 - Mar 2019

SJSV School Villupuram

Percentage :73

Aug 2019- Oct 2023

**Acharya college of Engineering
Technology - B. Tech**

CGPA:8.2
